

Sterling Dentistry Family Challenge 2015

Our winning contribution for our family day challenge;

What Keeps my Family United?

There is no magic potion to family unity except to love God first and allow him to teach you how to love your family.

As a child of God I love and Serve him and he helps me show love and respect to my family.

My family spends a lot of time doing activities together, which include eating at least one meal per day together; texting each other throughout the day, praying with each other at family worship in the mornings and praying for what bothers, stresses, or concerns each of us.

We know we can rely on each other to pray for each other.

Another thing that keeps our family united is to laugh together. We laugh at our quirks and our silliness.

Being able to be with each other is great. God knew what he was doing when he made families.

Debbie, Leroy, Leigh-Ann and David
